Review Summary

- The school excels in various aspects, including students' high academic achievement, personal development and leadership skills.
- Its leadership fosters a shared vision and inspires staff to innovate and stay updated. By providing intensive training workshops and facilitating knowledge sharing, the leadership empowers teachers to enhance teaching and learning practices, resulting in high-quality lessons across most subjects.
- The school provides a stimulating learning environment that caters to all students, regardless of their backgrounds. It offers a wide range of extracurricular activities, internal and external competitions as well as effective academic support programmes and exceptional support, particularly for students with special needs.
- The school should further share its best practices to optimise learning time and support low achievers, particularly in some science lessons.
- All of this means that students will continue to develop and grow, and the school will develop an Action Plan based on the review recommendations.
