No. of Students
622

Grade Levels
7 - 9

Overall effectiveness

Satisfactory with Good Features

Students' Academic
Achievement

Students' Personal
Development and
Wellbeing

Teaching, Learning
and Assessment

Leadership,
Management and
Governance

Review Summary

- The school provides an appropriate learning environment, where students are well-behaved and have a positive attitude. They are engaged in activities and committees that effectively enrich their experiences and talents. Additionally, students in the integration classes receive a comprehensive support.
- The school's leadership adopts a collaborative approach, implements appropriate procedures to follow up on school plans, and ensures partnership with the community, which has reflected positively on the overall performance of the school.
- Students make appropriate progress in the majority of lessons and written assignments, and positive progress in some lessons, especially in Grade 8.
- The school needs to make further efforts to improve students' skills in core subjects, and it should focus on developing the performance of some teachers to a greater extent, particularly in challenging students' and providing academic support, especially for the low achieving, while utilising learning time in a better manner.
- All of the above reflects that students will continue to receive an appropriate education. The school will draft an Action Plan based on the review recommendations.
