1 - 9

Overall effectiveness

## Inadequate with Satisfactory Features

Students' Academic  
Achievement

Students' Personal  
Development and  
Wellbeing

Teaching, Learning  
and Assessment

Leadership,  
Management and  
Governance

### Review Summary

- Students are well-behaved and respect their teachers and peers, the school reinforces these aspects through providing guidance programmes to promote students personal development.
- The school's leadership organises schoolwork by drafting plans, motivating teachers, and maintaining appropriate communication with parents and the local community to support student learning and enrich their experiences.
- Students achieve appropriate academic standards in some lessons, particularly in most mathematics classes.
- The school needs to improve students' standards in most subjects and to provide academic support programmes that meet the educational needs of various students.
- The school should develop teachers' performance in less effective lessons by focusing on training them to use a range of teaching methods, provide appropriate assessment, and make better use of learning time, especially in the Intermediate Stage.
- All of the above indicates that the school's students receive the support that helps them learn. The school will draft an Action Plan based on the review recommendations.
