Review Summary

- Maraya Training Center (MTC) learning environment is conducive and supportive, where the majority of learners develop proficient vocational skills and competences, enabling them to successfully achieve the qualifications they aim for, particularly in Hairdressing and Beauty.
- MTC's strengths include the utilisation of effective training strategies and assessments aligned with the awarding body requirements and providing purposeful opportunities to enhance learners' theoretical learning with practical experience. The Centre still needs to improve the effectiveness of the internal assessment verification to better prepare learners for the final submission.
- The leadership and management team monitors the Center's performance through purposeful self-assessment practices. The next step is to better utilise the outcomes of the self-assessment process to inform the action planning and improve the quality of the provision.
- MTC is 'Good' in all Aspects when reviewed and will develop an action plan to enhance its performance further based on the review's recommendations.
