Management and
Governance

Review Summary

- The school provides a learning environment where students receive excellent education and are provided with academic support programmes that enhance their academic achievement standards in core subjects. This makes them more prepared for the next stages of education.
- The school's leadership is ambitious, continuously trains and monitors teachers' performance, and disseminates outstanding practices among them, which contributes to delivering effective lessons for both Primary and Intermediate Stages.
- The school has a number of outstanding aspects, such as effective communication with parents, great concern for students' psychological safety, and the development of their personal characteristics in terms of behaviour and self-confidence. It encourages students to assume leadership roles, participate in lessons, and engage in numerous and diverse extra-curricular activities.
- The school should continue to challenge students' abilities and make better use of learning time in some lessons. Furthermore, it should continue to improve students' English language skills.
- The school is 'Outstanding' when reviewed and will draft an Action Plan based on the review recommendations.
