Review Summary

- The school is a motivating learning environment, where students enjoy school life, whether in lessons or through various extra-curricular activities, programmes, and events.
- The school has many positive features, such as the students high academic achievement, their leadership characteristics, as well as the quality of teaching in most specialised and general tracks, and the support for students with special needs.
- The school's leadership works in an organised manner to facilitate schoolwork, where its clearly implements school plans to achieve their objectives, and maintains good communication with parents and local community institutions, which enrich students' learning.
- The school needs to focus more on improving students' basic skills in English and supporting the low achieving in lessons and remedial programmes. In addition, to enhancing the quality of teaching and learning by increasing the effectiveness of some training programmes offered to teachers and closely monitoring their impact on their performance in lessons.
- All of this means that students will continue to develop, and the school will draft an Action Plan based on the review recommendations.
