No. of Students
1200

Overall Judgment

Compliant with the General Framework Standards

Main Finding

Ahlia University (AU) benefits from strong international and local partnerships and is committed to high-quality education through staff development, research, and community engagement. During the review, the following practices were identified as areas of strength: the well-established and mutually beneficial partnerships with distinguished higher education institutions and local businesses, AU's systematic approach for professional development, providing professional certifications and online professional development training accessible to all staff, the significant increase in the number of publications in high-impact journals, and AU's initiative to contribute to the United Nations Sustainable Development Goals.

As per the review recommendations, the University is asked to review the risk management system to ensure all significant institutional risks are thoroughly identified, evaluated by likelihood and impact, and have effective mitigation strategies. The University is also encouraged to prioritise the appointment of the Vice President for Administration and Finance to further ensure proper leadership and oversight, and to ensure all AU policies and procedures are clearly understood by staff for consistent implementation.
